Kagwad road, Mhaisal, Sangli, Maharashtra

SUMMARY

- "I'm a PHP Developer, Data Analyst, and UI/UX Designer currently pursuing an MCA. I love creating digital solutions that are easy to use, functional, and visually appealing. I have experience in web development, backend programming, and database management, and I enjoy designing user-friendly interfaces. I'm quick to learn new technologies, solve problems, and work with others to tackle challenging projects. I'm excited about growing professionally and bringing fresh ideas to the table."

PROJECTS

Alumni Management System

https://github.com/officialrahul1212/Alumni_Management_System-Website

- Technologies Used:** HTML, CSS, JavaScript, PHP, MySQL, Bootstrap
- Worked on designing and developing key features for an Alumni Management System, focusing on managing alumni data, organizing events, and streamlining communication. Implemented backend functionality for user authentication, alumni profile management, and event tracking. Enhanced the overall user experience through responsive and intuitive UI design.

Eye Care Hospital

- Technologies Used:** HTML, CSS, JavaScript, PHP, MySQL, Bootstrap
- The Eye Care Hospital Management System is a web-based application that streamlines patient registration, appointment scheduling, treatment management. It enhances operational efficiency, improves patient care, and provides real-time updates for both staff and patients.
